

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since 1974, becoming the largest independent spreader maker around the globe. They are a devoted manufacturer of spreaders meant for many different applications such as the swop bodies, trailers, and handling of containers.

ELME now has over a hundred and twenty five staff with all engineering is done in house by utilizing all of the most up-to-date FEM tools and CAD systems. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes across the world.

The ELME product series offers spreaders intended for various trailer and container handling operations. A few of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks as well as a wide array of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by means of using high quality components to be able to ensure dependability and excellent standards while offering competitive prices. Major characteristics of ELME consist of design simplicity, market reaction and innovative modular spreader concept.
