

Meritor Parts

Meritor Parts - Meritor is a leading international dealer that is proudly founded on a 100 year custom of quality and service. They concentrate on various modules, integrated systems and parts to original machine manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and feels that this particular energy contributes to their competitive advantage in the worldwide operations. The business values all their clients and wishes to ensure their success while anticipating their various needs. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

By only hiring future focused people, Meritor strongly thinks these top-caliber individuals will be able to quickly get used to to changing environments and exhibit the commitment and performance needed so as to reach results in the competitive materials handling business. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers all their employees various opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, braking and suspension systems utilized for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of their international engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group that is dedicated to ensuring optimum development at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 countries.

They have their supplier network which is particularly located to support the development of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each part of the business. The DFSS or likewise known as Design for Six Sigma ensures product reliability within each and every region. The team is even included transactional Green Belts who make use of Six Sigma tools to business methods and implement lean methods.
