

## Clark Forklift Part

Clark Forklift Parts - At this time, there are at least 350,000 Clark forklifts performing globally, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific parts intended for 20 exclusive designs of lift trucks and automated equipment. Your regional Clark Dealer is your total source for availability of all your components needs offered by Clark Totalift.

Clark has a extraordinary Parts Supply team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very amazing global support network. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a customary feature on every lift truck.

Clark's recurrent effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the world to be certified with the internationally accepted quality standard ISO 9001 for every one of their production plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the very economical and advantageous system of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was developed to acknowledge the most successful approaches of manufacturing plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing expenses. The contemporary value engineering program combines innovative product growth and delivers improved customer support and service within the industry.
