

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment could automatically activate to both dump and release as soon as the bumper release contacts the side of a dumpster. After dumping is done, the hopper is able to return to original upright and locked position. This particular piece of machinery even comes together with a cable that allows operation from the seat of the lift truck in order to have the alternative of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to be able to maintain durability.
